GCSE PSYCHOLOGY

Paper 2 Social context and behaviour

Monday 3 June 2019

Afternoon

Time allowed: 1 hour 45 minutes

Materials

For this paper you may use:

• a calculator.

Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 100.
- Question 19 is a synoptic question in which you will be rewarded for your ability to draw together different areas of knowledge and understanding from across the full course of study.
- Questions should be answered in continuous prose. You will be assessed on your ability to:
 - use good English
 - organise information clearly
 - use specialist vocabulary where appropriate.

02.1	A psychologist conducted a study to see if people will conform to the opinion of others.	outside
	The psychologist put each participant into a group with seven strangers. The group was asked to compare the length of three different lines to the length of a single line. Each group member was asked to say out loud which of the three lines was the same length as the single line. The participants were asked to say their answers last.	
	The participants did not know that everyone else in the group was a confederate and was deliberately giving wrong answers.	
	The psychologist found that 91% of the participants conformed by giving a wrong answer at least once.	
	Use your knowledge of one social factor affecting conformity to explain these results. [3 marks]	
02.2	Evaluate the study described in Question 2.1 . [4 marks]	

0 3	Briefly explain Milgram's agency theory of social factors affecting obedien	ce.
		[3 marks]
04	Use your knowledge of psychology to evaluate Adorno's theory of the Authoritarian Personality.	[5 marks]
	Turn over for the next question	

0 5	Read the following article.	Do not write outside the box
	Results of study into collective behaviour Researchers have carried out a study into collective behaviour with students from two different countries. People from Country A are more individualistic and people from Country B are more collectivist. The researchers found a difference in the way that students from each country behaved when they were put into a group and did a shared task. Students from Country A were found to put in less effort than students from Country B.	
0 5.1	What is meant by 'collective behaviour'? [1 mark]	
0 5.2	Identify and explain two social factors that influenced the collective behaviour described in the article. [4 marks]	
	Social Factor 1	
	Social Factor 2	
0 5.3	Use an example to explain how one dispositional factor could affect collective behaviour.	
	[2 marks]

Read the following information. Rhys was walking to school on the morning of his psychology exam. He realised that he was breathing faster than normal and wondered if that was because he was in a hurry, or because he was worried about his exam. As he reached the school gates, Rhys noticed someone from his class he thought was really attractive. Even though he felt his heart start to beat faster and he started to sweat, he tried to look confident by smiling and standing up straight. From the information, identify two examples of functions of the autonomic nervous system and two examples of functions of the somatic nervous system. Write your answers in the correct boxes.

IB/M/Jun19/8182/2

Read the following information.

Researchers wanted to understand more about how the fight or flight response affects heart rates. They asked 10 participants to wear heart monitors and to go on a roller coaster ride. The researchers recorded the beats per minute (bpm) of the participants' heart rates at three different times. The first time was 20 minutes before the ride, the second time was halfway through the ride and the last time was just as the ride finished. The results from all three times are shown in **Table 1**.

Table 1: bpm recorded at each point of the roller coaster ride.

Participant	Before the ride	Halfway through the ride	As the ride finished
1	80	125	100
2	70	140	115
3	90	135	110
4	70	115	95
5	80	135	100
6	70	145	100
7	70	140	105
8	60	130	110
9	90	150	125
10	80	135	105

1 1

Calculate the mean for the participants' bpm recordings taken 20 minutes before the ride. Show your workings.

[2 marks]

Workings:

Answer

1 1.2	What is the median for the participants' bpm recordings taken when they were halfway through the ride? [1 mark]	
1 1.3	Identify the mode for the participants' bpm recordings taken when the ride had just finished.	
	Shade one box. [1 mark]	
	A 100	
	B 105	
	C 110	
	D 115	
11.4	Look at the changes in the heart rates recorded in Table 1 . Use your knowledge of the fight or flight response to explain these changes. [4 marks]

	Psychological problems		
	Answer all questions in the spaces provided.		
1 5	Kaij carried out a study into genetic vulnerability and alcohol abuse.		
1 5.1	Identify the target population from which Kaij selected his sample of p	participants.	
	Shade one box.	[1 mark]	
	A Identical male twins from Sweden	0	
	B Male twins from Sweden	0	
	C Swedish males who drink	0	
	D Twins from Sweden	0	
1 5.2	Which of the following methods for collecting data was used by Kaij in Shade one box.	n his study? [1 mark]	
	A Field experiment		
	B Interviews	0	
	C Laboratory experiment	0	
	D Observation study	0	

1 6	Read the following article.
	Psychologists believe that social media can make us feel lonely!
	Researchers claim they have discovered that spending more time on social media sites can actually make us feel less connected to other people. This increases our sense of isolation. Researchers say that this is having a negative effect on our mental health and could be damaging to our relationships. It may also have a negative effect on our physical wellbeing and lead to an increased need for social care.
16.1	Identify one characteristic of mental health. [1 mark]
16.2	Briefly explain how significant mental health problems can affect both individuals and society. Refer to the article in your answer. [4 marks]
	Turn over for the next question
