Technology (ICT)**
PAPER 1: Written Paper

You do not need any other materials.

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*

Information

- The total mark for this paper is 100.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.
- Good luck with your examination.

1 Howard buys a tablet computer.

(a) Give **two** types of wireless connectivity that the tablet computer could use.

(2)

1

2

(b) Give **two** types of peripheral storage media that the tablet computer could use.

(2)

1

2

(c) Which **one** of these is required for the tablet computer to connect to the Internet?

(1)

A GPS

B ISP

C LAN

D NFC

(d) Which **one** of these is found in all computers?

(1)

A Control software

B Keyboard

C Operating system

D Processor

(e) Which **one** of these would be used as a desktop replacement computer?

(1)

- A** Laptop
- B** Mainframe
- C** Media Player
- D** Server

(f) Describe how tablet computers allow people to work from home.

(2)

.....

.....

.....

.....

(g) A CPU has 16 MiB of cache memory.

Construct an expression to show how many bits are in 16 MiB.

(3)

.....

.....

.....

.....

.....

.....

(h) Howard sells his old hard disk drive to Steve.

(i) Complete the table by ranking these storage devices in order of their read/write speed.

- A) Hard disk drive
- B) Optical disk drive
- C) Solid state drive

(2)

1 (Fastest)	
2	
3 (Slowest)	

(ii) Describe **two** factors that affect the read/write speed of a hard disk drive.

(4)

1

.....

.....

.....

2

.....

.....

.....

(iii) Explain **one** benefit to the environment of buying previously-owned devices.

(2)

.....

.....

.....

.....

(iv) Which **one** of these is the type of software Howard should use to make copies of his applications?

(1)

- A** Control
- B** Office-productivity
- C** Project management
- D** Utility

2 Judy is researching online.

(a) List **two** types of user-generated reference sites Judy could use.

(2)

1

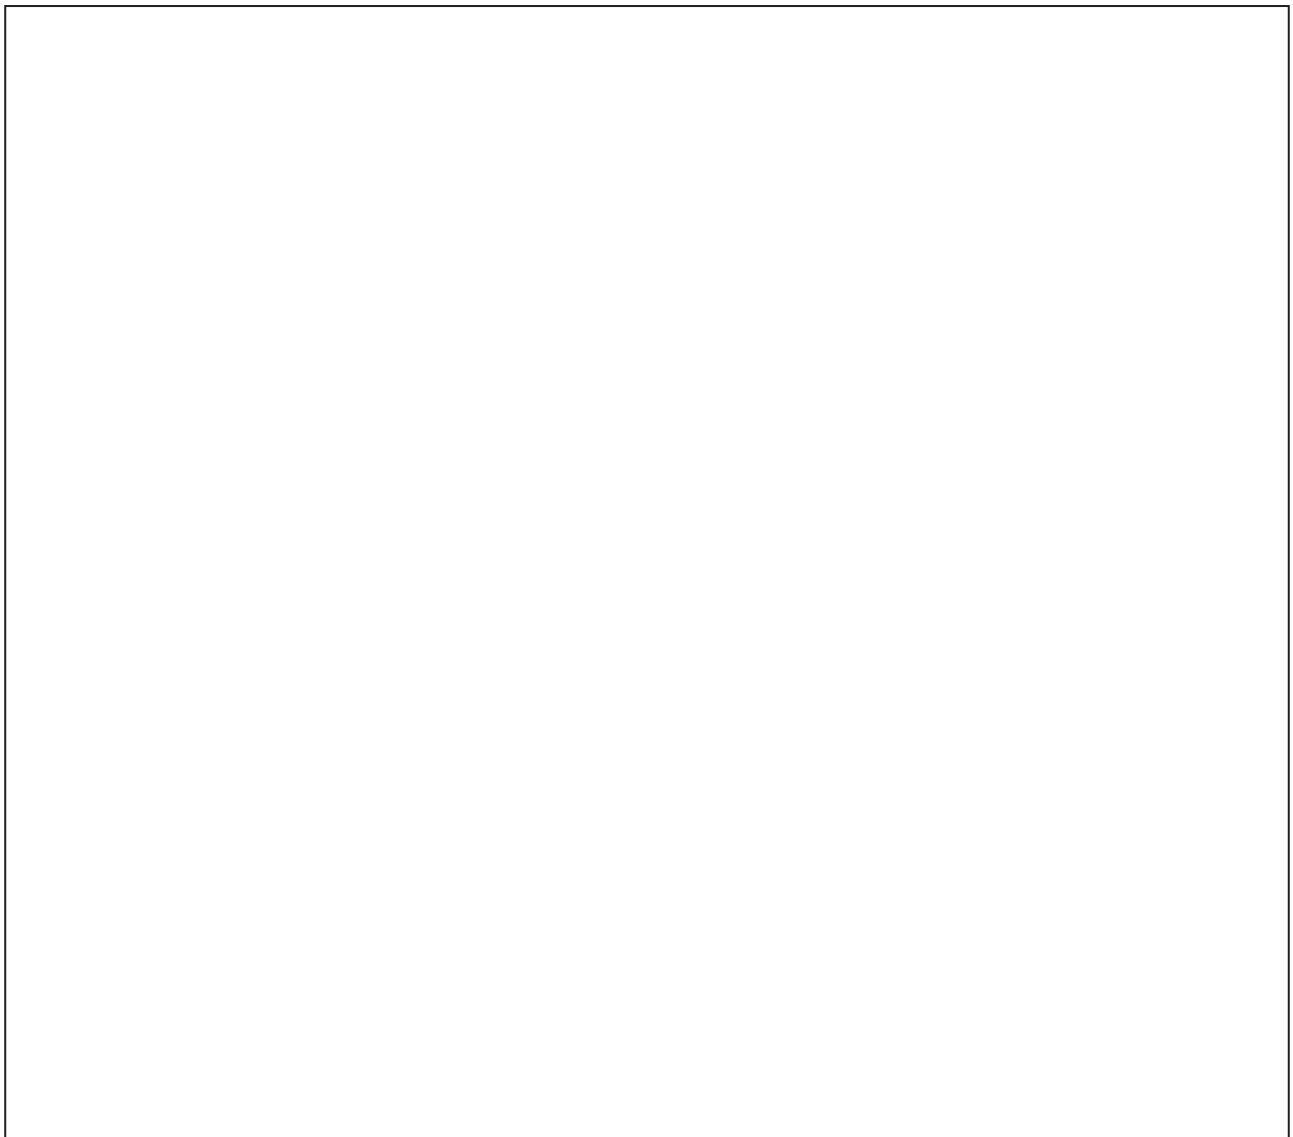

2

(b) Judy uses a mobile phone to make a voice call.

Draw a diagram to show the mobile phone's input and output devices required to make the call.

Label each device you use in your diagram.

(3)

(c) Judy sets file permissions on her online documents.

Which **one** of these is a benefit of doing this?

(1)

- A** Improves encryption
- B** Increases storage
- C** Quicker backup
- D** Secures data

(d) Describe how a CAPTCHA test reduces the function of malware.

(2)

.....

.....

.....

.....

(e) Explain **one** positive impact of cloud-based services on learning.

(2)

.....

.....

.....

.....

(f) Describe how mobile broadband can be used to provide access to cloud-based services.

(g) Give **one** reason why Judy should use mobile broadband.

(1)

.....

.....

(h) Explain **one** benefit of using wired connectivity.

(2)

.....

.....

.....

.....

(Total for Question 2 = 15 marks)

3 Eunice installs some software on her laptop.

(a) Draw **one** straight line from **each** example of utility software to the correct purpose.

(3)

Utility software

Compression

Back-up

Anti-malware

Purpose

Protect from viruses

Create copies of files

Reduce file sizes

Block IP addresses

Convert file types

(b) Which **one** of these types of device can have software installed to it?

(1)

- A Memory
- B OMR Reader
- C Processor
- D Storage

(c) Explain **one** benefit to Eunice of updating her software regularly.

(2)

.....

.....

.....

.....

(d) Eunice is travelling by train.

She connects to the Internet using the train's Wi-Fi connection.

Explain why the Wi-Fi provider blocks video streaming.

(2)

.....

.....

.....

.....

(e) The Internet has provided a wider range of entertainment and leisure opportunities.

One example is video and audio streaming.

State **two other** examples.

(2)

1.....

.....

2.....

.....

(f) Eunice changes her laptop's GPS settings.

Which **one** of these statements is true?

(1)

- A** GPS is used by all digital devices
- B** GPS does not use an Internet connection
- C** GPS uses cloud computing
- D** GPS is better if open source software is used

(g) Eunice writes a blog.

(i) Eunice wants visitors to her blog to see posts that are likely to be relevant to them.

Describe how cookies can be used to achieve this.

(4)

.....

.....

.....

.....

.....

.....

.....

.....

.....

(ii) In some countries, laws require website owners to obtain 'informed consent' from visitors before using cookies.

Explain why these laws are required.
